

KS1 ART CLUB

In our second session we drew and painted snowdrops and daffodils. We tried observational drawing as well as carbon paper tracing producing some lovely pencil sketches. We also produced our very own watercolour paintings applying the wax crayon - watercolour resistance technique that we practised in our first session. Please have a look at the following pages to see the exciting results.

Art Club with Denisa Francis on Monday afternoon at Kildwick Primary School

After drawing and tracing the flowers we also produced our very own watercolour paintings applying the wax crayon - watercolour resistance technique that we practised in our first session on colourful circles.

We had fun experimenting with colour mixing for the background. As you can see the results are all different and very original.
